

CLUSTER 24
COMMUNITY EMERGENCY MANAGEMENT PLAN (CEMP)
WOODRIDGE, FORT LINCOLN, GATEWAY

I. INTRODUCTION

A. Goal: The goal of this Community Emergency Management Plan (CEMP) is to assist the residents of the District of Columbia in preparing themselves, their families, their communities and their neighborhoods to cope with any and all types of emergencies.

B. Purpose: To establish emergency management functions and responsibilities within 39 neighborhood clusters within the District of Columbia. This document will augment the *District Response Plan (DRP)* dated April 4, 2002.

II. APPLICATION

A. Scope: The CEMP will apply to any public emergency, which is defined in D.C. Code 7-2301 as a disaster, catastrophe, or an emergency situation where the health, safety or welfare of persons in the District are threatened. This plan considers the emergencies and disasters likely to occur as described in the *District of Columbia Hazard Identification and Vulnerability Study (HIVS)*.

III. ORGANIZATION

A. Framework: The DRP provides the framework for how the District of Columbia will respond to any and all emergencies. This plan takes an all-hazards approach to disaster response, plus unifies and coordinates the efforts of the District's organizations in order to provide a comprehensive and effective approach for responding to and reducing the impacts of an emergency. The DRP describes the functions and activities necessary to implement the four phases of emergency management – mitigation, preparedness, response and recovery, as well as the use of community, volunteer, private sector and government resources.

1. The Mayor established the Mayor's Emergency Preparedness Council (EPC) in order to maintain, exercise, and review the DRP. The mayor also established an Emergency Preparedness Group (EPG) to support the EPC and establish the framework for ongoing disaster preparedness planning.

2. The District's Emergency Operations Center (EOC) is staffed 24 hours a day, 7 days a week by District of Columbia Emergency Management Agency (DCEMA) Operation's Officers. During an emergency or disaster the EOC assumes enhanced operations under the incident command system. The level of enhancement is dependent upon the severity of an event. Detailed EOC procedures outlined by the District and an organizational chart are in the DCEMA Emergency Operations Procedures, which are found in the DRP.
3. The DRP employs an Emergency Support Function (ESF) approach that groups direct assistance and operational support that the wards and clusters may need in order to accomplish hazard mitigation and preparedness, plus emergency and disaster response and recovery. The plan consists of:
 - a. The **Basic Plan** presents the policies and concepts of operations that guide how the District agencies will conduct mitigation, preparedness, response, and recovery activities.
 - b. The **Emergency Support Function Annexes (ESF)** organizes the various District agencies and departments into 15 different support functional areas. The ESFs describe the mission, policies, concept of operations, and responsibilities of the primary and support agencies involved in implementation of activities.
 - c. The **Appendices** contain additional pertinent information such as authorities, catalog of agreements, definitions and acronyms, and hazards affecting the District of Columbia.
 - d. The **Supporting Annexes** include additional annexes that are relevant to the DRP.

IV. HAZARD ANALYSIS

- A.** The District's Hazard Analysis has indicated that there are 15 hazards that could potentially affect the District.
- B.** Include specific information on particular hazards/issues within that particularly effect the cluster.
- Trees -- electrical lines vulnerable, sidewalks difficult to pass. The community has become frustrated with trying to get this problem addressed over the years.
 - Railroad cars on New York Avenue – potential HAZMAT risks
 - All gas stations – potential HAZMAT risks
 - Metro Bus Depot, Bladensburg and Channing – potential HAZMAT risks
 - Electricity outages – traffic lights, streetlights frequently go out
 - Flooding -- at foot of Monroe, at Fort Lincoln
 - Sewage – between 12th and 18th Streets, at 30th and Channing, and at Queens Chapel and Bladensburg Roads
 - Ice -- ice-packed sidewalks impassable, power lines vulnerable at Monroe and Eastern Avenue
 - Concerns that predatory criminals would become particularly active, putting communities at risk, during emergency situations.

V. CLUSTER EMERGENCY RESPONSE PROGRAM

A. Objectives

The overall objective of the Cluster Emergency Response Program is to provide the capability for stabilization and recovery within the first few hours to the first few days (72 hours) of a disaster; when governmental services may be unable to respond to all requests for assistance and/or public telephone facilities are not available for communicating requests for aid.

The plan entails a Neighbor-to-Neighbor self-help program. It provides the primary link between citizens and the professional response personnel of the responsible government agencies. When individuals and their neighborhoods are prepared to mutually assist each other immediately after a disaster, lives can be saved, property can be spared and emergency services can focus on responding to the most devastated areas.

This program places a great deal of emphasis on organization, team operations and information gathering. These details are necessary because emergency response procedures are unfamiliar to most people, and only occasionally practiced. Underlying it all though, is the primary objective of assisting our neighbors.

The kind of disasters in which a Cluster ERP response is envisioned includes earthquakes, hurricanes, floods, tornadoes, terrorism, power outages, and major fires.

B. Organization

1. Preparedness

a. Individual Preparedness

While the overall goal of the Cluster Emergency Response Program is to develop neighborhood self-sufficiency during times of disaster, preparedness efforts must focus on individuals and families in their homes. A city whose population is prepared at home will see a significant reduction in the need for police, fire and rescue support. All individuals should be prepared to be self sufficient for the first 72 hours after a disaster. Additional information on individual and family preparedness can be obtained from the DC Emergency Management Agency and other organizations such as the Red Cross.

b. Cluster Preparedness

Experience has shown that after a major disaster, police, fire, rescue and other emergency support agencies may not be available to many people during the first 72 hours of a disaster. Therefore, neighborhoods must be prepared to care for themselves if necessary during this critical time period. A neighborhood that has organized prior to a disaster will know what to do when the disaster occurs and not waste precious time figuring out who can do what. People and neighborhoods that are prepared will know what to expect during times of disaster, what to do, and how to come together in an organized, timely response (consequently saving lives).

In order to assist a cluster with preparedness efforts prior to a disaster, a cluster should establish an emergency preparedness committee. The primary purpose of the cluster emergency preparedness committee is to facilitate the development of community and neighborhood based volunteers into a cadre of organized partners who can come together during a disaster. In addition, the emergency preparedness committee should be responsible for:

1. Coordination of the development of the cluster emergency preparedness plan.
2. Registration of residents who wish to actively participate in the neighborhood or condominium/apartment program.
3. Pre-identifying neighbors and residents who have special skills.
4. Pre-identifying resources that can be shared within the neighborhood or complex in times of disaster.
5. Pre-identifying people with special needs.
6. Identifying neighborhood residents, tenants or owners wishing to assume leadership positions within the neighborhood or condominium/apartment program.
7. Organizing a system of block or neighborhood captains to disseminate urgent disaster information.
8. Supporting the creation of Community Emergency Response Teams (CERT).
9. Establish an emergency management organization consisting of neighborhood disaster coordinators and liaisons.
10. The cluster emergency preparedness committee should bring together leaders from the various sectors of the community to coordinate the emergency preparedness efforts. Membership may include elected officials, volunteer groups, community service groups, faith-based groups, advisory neighborhood commissions, wards, voting districts, educational leaders, businesses, and environmental groups. Other representatives could come from specific segments of the community, such as elderly or non-English speaking populations.

C. Training

1. If available, emergency services personnel are the best resource in an emergency. They are trained and equipped to handle emergency situations. However, following a catastrophic disaster, individuals and the communities may be on their own for a period of time because of the size of the area affected, lost communications, and unpassable roads.
2. CERT Training is designed to prepare individuals to help themselves, their family, and their neighbors in the event of a catastrophic disaster. Because emergency services personnel may not be able to help everyone immediately, citizens can make a difference by using the training in the manual to save lives and protect property.
3. This training covers basic skills that are important to know in a disaster when emergency services are not available. Individuals will want to help. With training and practice and by working as a team, people will be able to do the greatest good for the greatest number after a disaster, while protecting them from becoming a victim.

D. Response

Community Emergency Response Teams

1. CERTs provide direct assistance to neighbors in distress, and will constitute the majority of Cluster Emergency Response Program members. Neighborhoods within the District of Columbia should be encouraged to develop CERT programs.
2. Each team should have a team leader and several members. Its primary responsibility is to its own neighborhood. Teams should have basic personal safety gear (hard hat, gloves, flashlight, whistle, etc.), gas shut off tool, small first aid kit, "occupants OK" tags with duct tape and markers, food and water.
3. In the event of a major disaster when government assistance may be delayed, CERTs may have to perform the following functions:

- Locate and care for the injured and provide basic first aid.
- Perform rescues within the ability of the team (CERTs are not expected to engage in hazardous rescue activities).
- Shut off customer level gas and electric utilities to reduce hazards.
- Communicate needs for outside assistance to government agencies via the Community Emergency Coordination Center (CECC) structure.
- Identify and tabulate damaged structures, roads, and utilities.
- Assist neighbors who are unable to occupy their homes in finding temporary shelter.
- Check on persons with disabilities, the elderly or vulnerable populations.

CERTs should be prepared to manage convergent volunteers, that is, people who have not been trained under the CERT program but want to help. They should be asked to identify special skills and where possible, paired up with experienced CERT members.

Cluster Emergency Coordination Center

Each cluster should have a fixed location that can serve as a Cluster Emergency Coordination Center (Cluster ECC). This should be a location that community leaders (e.g., grassroots, political, religious, educational, business, labor, and ethnic) can gather to respond to or obtain assistance and information in the event of a disaster.

All schools, recreation centers and churches should be considered as potential locations for the Cluster 24 Emergency Coordination Center. The following in particular:

- Taft Junior High School
- Washington Center for the Aged, 2600 18th Street, NE
- Thurgood Marshall Elementary, 3100 Fort Lincoln, NE
- Mount Horeb Baptist Church, Bladensburg Rd. and Earl Place, NE
- Langdon Elementary School, 20th and Channing, NE
- New Cannon Baptist Church, 2600 Bladensburg Rd., NE
- Petersburg Building, 3298 For Lincoln Drive
- St. Francis Desalle, 20th and Rhode Island Avenue, NE

Ideally, the ECC should be located at a facility, which has emergency power (e.g. generator). The ECC should have a telephone, fax machine, television, copy machine, and computer with internet/email access. Additionally, the ECC should have a kit with emergency supplies, such as an AM/FM radio and batteries, flashlights, identification tags, first aid kit, clipboards, pens, paper, neighborhood maps and a neighborhood information book. A supply of operational forms should be included, such as personnel check-in forms, damage and injury tally forms, incident status, and CERT Team Assignment Record.

Plans should be made for backup radio communications capability with the District's Emergency Operations Center.

The primary purpose of the Cluster ECC is to:

1. Collect information from the neighborhood CERTs and develop a comprehensive understanding of the emergency situation throughout the cluster.
2. Provide disaster situation information to the District's Emergency Operations Center.
3. Forward specific requests for assistance to the Emergency Operations Center.
4. Receive information from the District on the emergency situation, and make this available to the neighborhood CERTs, community organizations and neighborhoods.

5. Establish a system of runners to disseminate information to neighborhoods in the event normal communication systems fail.
6. Assist neighborhood teams with locating needed supplies and equipment, either in the cluster, from government agencies or other sources.
7. Utilize the skills and knowledge that the neighborhood currently possesses.

Cluster ECCs shall maintain contact with the Community Outreach Coordinator or designee at the District's Emergency Operations Center. The Community Outreach Coordinator is part of ESF #14, Media Relations and Community Outreach. In the event of a widespread disaster, ward based Emergency Command Centers may be established, in such cases cluster ECCs should coordinate with these centers. Additionally, the Community Outreach Coordinator may assign field team representatives to the clusters (or sectors).

District Emergency Operations Center (EOC)

The DCEMA operates the District's EOC in order to coordinate the District's actions during an emergency or disaster. The primary EOC is located at the Frank D. Reeves Center (2000 14th St., NW, 8th Floor) with a 24-hour-a-day warning and communications capability. The location of the Alternate Emergency Operations Center (AEOC) is the Metropolitan Police Department Headquarters at 300 Indiana Ave., NW.

VI. SPECIFIC CLUSTER RESPONSE GUIDELINES AND INFORMATION

Neighborhood Cluster 24 is formed by the neighborhoods of **Woodridge, Fort Lincoln, and Gateway**. The neighborhood has an approximate population of 11,558 or roughly

2.2% of the District's total population (1998 data).

The District of Columbia's Office of Planning has compared the estimated data for Cluster 24 with city-wide data and found some interesting differences. For example, Cluster 24 has:

- A population in which just under half of residents are 55 years old or older
- A very high percentage of housing that is owner occupied.

The following services are located within Cluster 24.

Recreation Centers

- Theodore Hagans Cultural Center, 3201 Ft Lincoln Drive, NE
- Langdon Recreation Center, 20th and Franklin Streets, NE

DC Public Schools

- Taft Junior High School
- Thurgood Marshall Elementary School
- Noys Elementary School
- John Burrows Elementary

Private Schools

- Montessori School (Address?)
- Dudley Beauty Academy
- St. Francis
- McHendry Math Academy, South Dakota and Rhode Island Avenues, NE

Medical Care Facilities

- Dialysis Center, 3300 Bladensburg Road
- St. Jude's, Rhode Island Avenue and Monroe, NE

- Rehab center for high school age boys (name?), 25th Place and Bladensburg Road, NE
- Salvation Army Harbor Light, New York and Bladensburg Road, NE
- Convent Sisters of Charity, 28th and Otis Streets, NE
- Hospital for Sick Children, 18th and Bunker Hill Road, NE

Senior Facilities

- Greater Washington Urban League, 2800 Newton St
- (Next door to above location) Heiden House for the Blind and Visually Impaired Senior Center, 2900 Newton Street
- Fort Lincoln 1 Senior Nutrition Center, 3001 Bladensburg
- Four-building cluster of senior residences at 2855 through 3005, in Fort Lincoln
- Washington Home of the Aged, 18th and Bryant Streets, NE
- Senior Wellness Center, 20th and Evert Streets, NE
- Green Valley Apartments, 2412 Franklin Streets, NE

Libraries

- Woodbridge Library, 18th and Rhode Island Streets, NE

Fire and EMS Stations

N/A

Police Stations and Police Service Areas

- PSAs 501, 503, 506, 507
- 5D Headquarters

Neighborhood Organizations and Groups

- Woodridge Civic Association
- South Central Community Association
- Gateway Community Association
- Fort Lincoln Civic Association, Inc.
- Rhode Island Avenue Merchants Association
- ANC 5B, 5A11, 5A12
- Masons, 22nd Street and Rhode Island Avenue, NE
- Supreme Council of Eastern Star
- H Street Development Corp., 20th Street and Rhode Island Avenue, NE

CLUSTER SPECIFIC GUIDELINES

1. Homeland Security Advisory System Recommendations

A. District Information

Homeland Security Advisory System Recommendations for neighborhoods, adopted from the American National Red Cross.

Risk of Attack and Recommended Actions

SEVERE

1. Complete recommended actions at lower levels.
2. Listen to radio/TV for current information/instructions.
3. Be alert to suspicious activity and immediately report it to proper authorities.
4. Adhere to any travel restrictions announced by local governmental authorities.
5. Be prepared to move to the shelter in place/evacuate; and assist neighbors who are elderly or have special needs to also make such moves.
6. Check on neighbors who are elderly or have special needs to ensure their well-being. Review disaster plan with them.
7. If the need arises, contact the nearest blood collection agency and offer to organize a neighborhood blood drive.

ELEVATED

1. Complete recommended actions at lower levels.
2. Be alert to suspicious activity and report it to proper authorities.
3. Have a neighborhood meeting in order to identify neighbors who are elderly or have special needs. Assist them in development of a personal disaster plan and disaster supplies kit, if requested.

GUARDED

1. Complete recommended actions at lower level.

2. Be alert to suspicious activity and report it to proper authorities.
3. Ask the local Red Cross chapter to offer a presentation called *Preparing for the Unexpected* at an upcoming neighborhood meeting.

LOW

1. Have a neighborhood meeting to discuss emergency plans and establish a neighborhood watch.
2. Obtain copies of *Terrorism: Preparing for the Unexpected* brochure from your local Red Cross chapter and distribute it at neighborhood meeting

B. Cluster Specific Information

The District of Columbia has 83 police service areas (PSAs), seven police districts, and three regional operations commands (ROCs). The PSA is the smallest geographical subdivision of the city; its size and shape usually follow neighborhood and natural boundaries.

Every resident lives in a PSA and every PSA has a team of police officers and officials assigned to it. Residents should get to know their PSA team and learn how to work with them to fight crime and disorder in their neighborhoods.

Cluster 24 is within PSAs 501, 503, 506, and 507 which are located within the Fifth District.

2. Heat Wave

A. District Information that pertains to cluster:

The government of the District of Columbia implements a heat emergency plan when the heat index reaches 95 degrees Fahrenheit. The heat index is an accurate measure of how hot it really feels when the effects of humidity are added to high temperature. The DC Emergency Management Agency in cooperation with other city and private agencies developed the city's heat plan.

Key components of the city's heat plan include:

1. Activation of street showers in selected locations.

2. Opening of cooling centers in senior citizen facilities, District government buildings and other locations.
3. Extension of public swimming pool hours.
4. Distribution of fans to special needs populations,

1). Street Showers:

During a heat emergency, street showers will be activated at DC Housing Authority (DCHA) facilities and public locations.

| Facility | Address |
|------------------------|---------------------------|
| East Capitol Dwellings | 140 57th Pl., SE |
| Lincoln Heights | 223 51st St., NE (front) |
| Hopkins Apartments | 1000 12th St., SE (rear) |
| Carrollsborg | 4th and L streets, SE |
| Garfield Terrace | 2381 11th St., NW (front) |
| Park Morton | 620 Morton St., NW |
| Benning Terrace | 605 46th Pl., SE |
| Public Locations: | 21st and I streets, NE |
| | 901 21st St., NE (front) |

2). Cooling Centers

During heat emergencies, United Planning Organization vans will canvass various areas throughout the city to identify persons suffering from the heat and transport them to cooling centers. Persons who need transportation to cooling centers can call the hypothermia hotline at (202) 399-7093.

***Within Cluster 24**

3) Fans for Special Needs Populations:

The DC Energy Office, through its Low Income Home Energy Assistance Program, has a limited number of fans for distribution to District households that meet the following criteria:

1. Have at least one member age 5 or below, or;
2. Have at least one member age 60 or above, or;
3. Have at last one member who has a documented respiratory condition or a statement from a doctor or medical facility describing a need for some type of cooling assistance.

Eligible households must also meet the federal income guidelines for energy assistance. For more information, contact the DC Energy Office Hotline at (202) 673-6750.

B. Cluster Specific Information

Provide cluster specific information here, such as locations of neighborhood cooling centers.
N/A

3. Emergency Sheltering Program

A. District Information which pertains to cluster

When conditions warrant, the DC Emergency Management agency will operate the established community-based emergency shelters for residents. Persons needing shelter are asked to bring clothing and sanitary supplies, pre-filled prescriptions and other medical needs, denture and eye care materials, and special dietary supplies or requirements. With the exception of guide dogs, pets are not permitted in the shelters.

B. Cluster Specific Information

- Second New St. Paul Baptist Church, 24th and Franklin Streets, NE
- DC Tunnel, Queens Chapel Terrace, NE 202-526-7960
- Check schools within cluster

Shelters should be located in facilities that:

1. Have adequate capacity. Multiply the number of people expected to be sheltered at the facility by 40 square feet (20 square feet in an extreme emergency) to determine the size of the sleeping area required for the shelter.

2. Can provide for the evacuees' basic needs (e.g., a facility with a kitchen, toilets, showers, areas for sleeping, generator, etc.).
3. Are free of building and fire code violations.
4. Do not have vulnerable building features, such as:
 - a) First floor lower than the FIRM base elevation.
 - b) Long, open roof spans.
 - c) Excessive overhangs.
 - d) Large glass areas.
 - e) Construction of un-reinforced masonry.
 - f) Do not contain stored hazardous materials.

Intermediate and high schools are usually good choices for shelters because they can accommodate a large number of people and have a broader range of facilities than other structures. Church facilities may be a good choice for short-term sheltering because they are normally used only one or two days each week and usually have well-equipped kitchens and available staff, but typically have limited restroom and shower facilities.

4. Emergency Communications

A. District Information

1. Radio and TV:

Getting information during an emergency situation is vital. Radio and television stations provide the quickest means to obtain information. If you have electrical power and cable television, turn to the D.C. Government cable channels, 13 and 16, for frequent updates. Have a battery-operated radio tuned to a local all-news or talk-radio station. For the District of Columbia the following station has been designated the primary Emergency Alerting System (EAS) radio station: WTOP (1500 AM). Consider purchasing a battery-operated weather alert radio.

2. Emergency Service Sites (ESS)

In the event people are unable to contact the police because of telephone or electricity failures, the Metropolitan Police Department will have more than 125 Emergency Service Sites (ESS) situated throughout the District -- in fire stations, community centers, local businesses, and other locations.

People can go to their nearest ESS to report a crime or to request any other type of public safety assistance. There will be a minimum of one ESS in each police service area; many police service areas (PSAs) will have several sites.

| PSA | Site Address | Name | Type | Phone# |
|-----|---------------------|-----------------------------|------------|--------|
| 501 | 1150 Varnum St | Providence | Hospital | |
| 503 | 1340 RI Ave, NE | Eng Co#26 | Firehouse | |
| 503 | 3200 RI Ave, NE | Henden Sr Citizen | | |
| 506 | 2300 Fort Lincon Dr | (Not sure if in Cluster 24) | | |
| 507 | 800 Fla Ave, NE | Gallaudet | University | |

B. Cluster Specific Information

Additional communications centers:

- 7-11 at Bladensburg and Central Avenue, NE
- 7-11 20th Street and Rhode Island, NE

5. Food

Identify the locations of facilities that could serve food. Facilities should have capability to store food. Facilities should also have a preparation area and service area that is appropriate for its intended use according to established public health regulations and

requirements.

- Hoods Institute, 3000 V Street, NE
- Salvation Army Harbor Light, New York and Blandensburg Road, NE
- Tunnel, Blandensburg Road and Queens Chapel Terrace, NE
- Aqua, 1818 New York Avenue, NE
- All senior buildings in Cluster 24

6. Bulk Distribution Sites

Identify facilities that could serve as bulk distribution sites for goods and materials such as bottled water, ice, tarps, rolls of plastic, work gloves, trash bags, other items.

- Warehouses on V Street, NE
- Goodwill, S. Dakota Avenue, NE
- Teamsters, Ames and 21st Place, NE
